offer for exhibitors

10th edition of the Baltictech Conference

The first editions of the Baltictech Conference took place in Jastrzebia Gora in 2007, and since 2010 it has been held regularly in Gdynia.

Our conference is one of the three largest meetings of technical divers in the world. From year to year it enjoys a growing interest in the diving community. So far we have hosted 130 speakers from all over the world, in 2019 we had speakers from 14 countries. During the last edition of the conference we were visited by divers from all over Poland and also from abroad, in total we welcomed divers from 17 countries.

10th Baltictech Conference

This year we invite all Exhibitors to participate in the jubilee of 10th edition! This is an excellent opportunity to present novelties in the diving industry, products, services, technologies and meet with customers. We encourage manufacturers of diving equipment, distributors, representatives of diving federations, travel agencies and dive centers to participate in this event. Do not miss this opportunity.

The conference and trade fair will be held in a new location in the Main Library of the Naval Academy in Gdynia (Śmidowicza 69, 81-127 Gdynia).

10th edition of the Baltictech Conference

Before us are 2 days of diving feast. We plan a lot of attractions, above all, traditionally great speakers, who will attract crowds of listeners and potential customers.

This year we are preparing for you the opportunity to show and test your equipment in the pool.

We are giving 32 stands to the exhibitors.

Don't hesitate, priority selection is determined by the order of submissions. Apply through the form.
